# Covertan Pro

Produced by FIBERWEB, Biesheim, E.U., a Global leader in specialty materials.  
Full 1-house manufacturing with quality checks at every stage of production.  
Created specially for our growers demanding outstanding performance.

- EARLIER PLANTINGS
- COLD/ENVIRONMENTAL PROTECTION
- HIGHER YIELDS
- ACCELERATED GROWTH
- EARLIER OR LATER HARVESTS

- New 40-50 % thicker filaments than other brands adds strength
- Covertan Pro with outstanding abrasion resistance protecting your sensitive crops
- Superb uniform fiber distribution enhances viral insect protection
- Optimized permeability to water, light and air reduces disease pressure
- Integrated seam strength for faster manual or mechanical handling

More light passes through Covertan on left vs. Brand X (less transparent) on right for faster growth

Reinforced edges for speed handling your team will love.

Growers discover multi-acre protection for early & higher yields.

Covertan Pro 30 saving peppers at 26 F.
