Covertan Pro

We proudly produce at Berry-Global, Biesheim, E.U., your premier crop cover facility.

Full 1-house manufacturing with quality checks at every stage of production.

Created especially for our growers demanding outstanding performance.

- EARLIER PLANTINGS
- COLD/ENVIRONMENTAL PROTECTION
- HIGHER YIELDS
- ACCELERATED GROWTH
- EARLIER OR LATER HARVESTS

- Covertan saves space in a truck or your shop packaged to 7.9' (2.4m) for easier handling.
- Made with 40-50% thicker filaments than other brands add strength growers rely on.
- Covertan has outstanding abrasion resistance protecting your sensitive crops.
- Optimized permeability to water, light, and air, reducing disease risks.
- Our Integrated, durable seams hold together for fast manual or mechanical handling.

More light passes through Covertan on the left vs. brand X (less transparent) on the right for faster growth

Saving Bell Peppers @ 26 F

Bitte Rand - German for reinforced edges for speed handling your crew will love

- Engineered with UV stabilizers, growers trust the durability of Covertan.
- We enhance recycling programs, with no binders or chemicals for a greener world.
- Guarantee results with our Z fold in widths up to 91' (28m), min. Length 328' (100m).
- Covertan saves space in your shop packaged to 7.9' (2.4m) for easier handling.
